

# Enterprise ESS system project financing options in Portugal 2026

Does Portugal support battery energy storage projects?

Portugal has awarded grant support to around 500MW of battery energy storage system (BESS) projects, using EU Recovery and Resilience Plan (RRP) funding, a bloc-wide scheme that has supported energy storage across the continent.

What funding sources are available in Portugal?

The most common source of funding in Portugal is through debt and equity. However, there are more sources of funding available, such as bond issues and mezzanine finance. Both private finance initiatives and public private partnership structures are usually funded by private sector equity and debt funding.

How much will Portugal spend on energy storage and grid flexibility?

The Portuguese Ministry of Energy has allocated EUR 100 million (\$108 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

Does Portugal need energy storage?

Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated EUR99.75 million in a bid to support 500 MW of energy storage projects.
