

# Household energy storage supplier quotation in Ethiopia 2025

How can the outlook contribute to the development of Ethiopian energy sector?

The Outlook has been developed in close cooperation with all partners with strong commitment, openness and good discussions. It is the ambition that the Outlook in the same way can contribute to the development of the Ethiopian energy sector. 1. Executive Summary

What is the outlook for energy policy in Ethiopia?

The outlook is meant as a review of the current energy policy. The purpose is not to give detailed recommendations - but more to give a solid foundation for a discussion of key issues within energy policy. In the current outlook, also Ethiopian Electric Utility (EEU) and Petroleum & Energy Authority (PEA) are participating.

Why is biomass a critical source of energy in Ethiopia?

In Ethiopia, biomass is a critical source of energy, particularly in rural areas where access to modern energy sources is limited. Biomass constitutes 86% of the total final energy demand in Ethiopia and the demand is estimated to increase with 2.4% p.a.

Does Ethiopia have a stable electricity supply?

In recent years, Ethiopia's power system has faced increasing challenges in maintaining a stable electricity supply. Frequent power interruptions have several negative consequences, such as: Disruptions in production and delays. Limited benefits for end-users who rely on a stable electricity supply.

What is Ethiopia's energy policy?

Ethiopia's energy policy plays a crucial role in shaping the country's economy and the well-being of its population. This second Ethiopian Energy Outlook aims to support policy development through fact-based and critical analysis.

How can Ethiopia achieve universal electrification?

To achieve universal electrification, Ethiopia must adopt a comprehensive approach that prioritizes grid expansion while integrating broader energy planning strategies. Key policy and strategy measures include: Securing additional investment to strengthen distribution infrastructure and prioritize last-mile connections.
