

Radio and TV network can only access WeChat

Does WeChat work on other networks?

If WeChat works okay on other networks, check your network settings on your router to make sure that app is not blocked. See our recommended router settings here: Recommended settings for Wi-Fi routers and access points. If the issue is not with your router settings, you may have an issue with your WeChat app itself. Check for an app update.

Does WeChat use cellular data?

WeChat uses a local network back up or restore your chat history. No cellular data will be used. Check your network connection: Make sure your phone and computer are connected to the same network (router, personal hotspot or wireless card) to transfer the data. Only local networks are used during this process, so no cellular data will be used.

Why is WeChat not working?

If you have checked and confirmed that you have a stable internet connection, but WeChat is still experiencing issues, you may need to check your device's network settings. Make sure your Wi-Fi or mobile data settings are turned on and your device is not in power saving mode, as this may affect app connectivity.

What is WeChat Channels?

WeChat Channels is a video app within WeChat. Short video content has become the latest trend in China. Here's how to use WeChat's latest function "WeChat Channels" to reach your audiences.

How to fix WeChat connection problems?

The first step to fix WeChat connection problems is make sure your internet connection is working properly. It may seem obvious, but often connection problems can be caused by an unstable or weak connection. Check if you're connected to a trusted Wi-Fi network or if you have good mobile data coverage. 2. Restart the application

How many WeChat users have access to channels?

During the current Beta phase, less than 10% of WeChat users have access to Channels. The first video posted by celebrity Deng Lun on Channels received 37.3k comments and 41.3k likes, making it one of the most viral videos on Channels. However, this is only a fraction of the traffic Deng gets on Weibo.
