Will European countries help Europe's ailing solar panel manufacturers?

REUTERS/Stephane Mahe/File Photo Purchase Licensing Rights BRUSSELS, April 15 (Reuters) - Most European Union countries are set to commit more support to help Europe's ailing solar panel manufacturers on Monday, but steer clear of restrictions on cheap panel imports from China, a draft document showed.

Should Europe import solar panels from China?

of the ongoing aggression against Ukraine. With Europe importing 80 % of its solar panels from China, dependencies would merely shift from imported oil or gas to imported solar equipment, leaving much to be desired when it comes to the solar sector as a genuine source

Does the EU support the solar industry?

Mairead McGuinness, the EU commissioner in charge of financial services, told the European Parliament that the EU was working on a vast set of instruments to support the solar industry. Currently, 97% of the panels deployed in Europe are imported, mainly from China.

How does the EU support the European solar PV manufacturing sector?

Over the last years, the EU has taken initiatives to strengthen its support to the European solar PV manufacturing sector, which includes several globally competitive companies in several steps of the value chain.

Are cheap Chinese solar panels driving record solar energy installations?

A flood of cheap Chinese solar panel imports is driving record solar energy installations. But those same imports are crushing Europe's few local solar manufacturers. Governments and industry are split over how to respond. Europe just had a bumper year for green energy.

Does Solarpower Europe support trade measures?

However, SolarPower Europe, an industry body that counts Chinese telecoms company Huawei among its members, has publicly campaigned against trade measures. "We have repeatedly warned that EU and national policymakers must rapidly act with real solutions," said SolarPower Europe chief executive Walburga Hemetsberger.

Most European Union countries are set to commit more support to help Europe's ailing solar panel manufacturers on Monday, but steer clear of restrictions on cheap panel imports from China, a...

Since 2011, the number of antidumping, countervailing and import duties levied against parts of the solar PV supply chain has increased from just 1 import tax to 16 duties and import taxes, with 8 additional policies under consideration.
